Subject: Withdrawn - [REDACTED]

Dear Applicant,

You are receiving this email because your Interconnection Request ("IR") was either **withdrawn due to an unresolved deficiency**, or the Applicant has requested that the project be withdrawn effective **4/19/2017**.

If you believe this IR was withdrawn in error, please contact [866-600-6290](tel:866-600-6290). Should you wish to re-apply, you may do so by visiting <https://sceinterconnect.powerclerk.com>.

Subject: Application Submitted. Pending SCE Review - SCE-107705; [REDACTED]

Dear Applicant:

This e-mail confirms receipt of your Net Energy Metering Interconnection Request ("IR") for: **10731 Pearl St., Garden Grove CA 92840**. Should corrections to a submitted application be required, SCE will notify both Customer and Contractor/Installer with specifics.

SCE has received the following documents as part of this IR:

Interconnection Agreement*:	NEM Agreement (Form 14-923) 10kW or Less_ [REDACTED].pdf- 3/29/2017 6:03:17 PM
Final Inspection*:	Final Building [REDACTED] 29/2017 6:03:50 PM
Single-Line Diagram/Plot Plan*:	E-1_Single Line Diagram_ [REDACTED].pdf - 3/29/2017 6:03:28 PM A-1_Plot Plan_ [REDACTED].pdf - 3/29/2017 6:03:38 PM
Other Attachment(s)**:	If applying for NEM Aggregation: - - If applying for MASH/NEM-V: - If applying for Fuel Cell: -

* Blank row(s) indicates no attachment received.

** Other Attachments are conditionally required, depending on the program type selected as part of this IR.

If you are self-installing your own system, please follow the instructions shown below for the Contractor/Installer.

NOTE TO CONTRACTOR/INSTALLER REGARDING COMPLETING THE APPLICATION PROCESS:

Preparer Name: Thanh Tran
Preparer Company: SolarTime

Should you wish to submit an **Equipment Change** to this IR, be aware that your current queue position will be forfeit, pending SCE re-review. To submit an **Equipment Change**, locate the blue 'NEM Application' button that is available at the following status': *Application Submitted. Pending SCE Review, Technical Approval Complete. Pending Final NEM Review, and Pending Applicant Submittal of Final Standard/Specialty Documents* and make the necessary changes to the IR.

If the Interconnection Agreement and/or Final Inspection Card was not included when the IR was submitted (as indicated above), visit <https://sceinterconnect.powerclerk.com>, locate the project, and click on the blue 'Submit Agreement' & 'Submit Final Inspection' buttons to upload these documents.

This is a system generated email. The preparer can review the status of this IR at <https://sceinterconnect.powerclerk.com>.

Best regards,

Southern California Edison - Net Energy Metering Interconnection

Note: According to the NEM program language in CPUC 2827, utilities have thirty (30) working days from the receipt of a complete application to (1) issue a Permission to Operate (PTO) letter, (2) make sure the customer has a bi-directional meter and (3) put the customer on the NEM rate schedule. If it takes more than thirty (30) working days to complete any of these tasks, SCE will apply a credit based on estimated generation to your statement back to the thirty (30) working day date. Please refer to [Rule 21 - Generating Facility Interconnections](#) and [NEM Forms & Documents](#) for additional information.

Best regards,

Southern California Edison
